

EASY WAYS to Organize Your Home

5

Getting organized isn't always simple, but these 5 tips can help guide you towards a tidier, less cluttered home.

HOOKS ARE YOUR FRIEND.

Hanging items—think bags, hats, and jackets—can reduce mess. Add hooks in closets, bedrooms and mudrooms, as well as the kitchen for pots, pans and cooking utensils.

1

BLANKET LADDERS AND TOWEL RACKS SAVE SPACE.

Hang towel racks in your linen closet or laundry room for extra storage space. Use blanket ladders in the living room or bedrooms to store and style the various, necessary fabrics you have in your life.

2

PREPARE FOR TOY CLEAN-UP BEFORE PLAYTIME.

From LEGOs to doll accessories, small toys and figurines can litter the floor and add unmanageable post-play mess. To keep these toys from taking over, lay a large sheet or blanket on the floor for kids to dump out their small toys and play on. At clean-up time, lift the corners of the blanket and shake toys back into storage bins.

3

COLOR CODED FOLDERS.

Make important documents and files stand-out with specific-hued folders. Inside your storage drawer, add a legend for what each color means—such as yellow for tax information, green for kids' documents, etc.—so you can quickly find what you need.

REDUCE DRAWER DRAMA WITH ORGANIZERS.

Drawer organizers and spacers help to clearly separate items, so you can find things easier and reduce the likelihood of items being misplaced.

These simple tips can solve everyday clutter, but for truly transforming your space, Innovative Cabinets and Closets is here to help.

We offer custom solutions to add functionality and organization to closets, pantries, home offices, living rooms, garages, media rooms and more!
